Emergency Response Solutions facilitated the second Bonneville County Wildland Urban Interface Mitigation Public Meeting on August 31st at 6:00 p.m. in Swan Valley Fire Station #2. The meeting provided the second in a series of opportunities to gather and implement public comments into the wildland/urban interface fire mitigation plan. Several fire personnel were able to present information regarding defensible space planning, district response capabilities, and FireWise. In addition, homeowners were able to provide valuable comments and information.

A synopsis of the meeting follows:

- Rick Fawcett provided information in regard to plan development and future implementation.
- The current status of available fire fighting resources was discussed.
- Several homeowners asked questions if they are included in a fire district. Dean Philbrick was able to address these questions and provide homeowners with the requisite information.

- The cost of fire protection per year was discussed including Fire Protection Districts tax levy information.
- The status of previous and current mitigation actions was discussed.
- The proposed mitigation actions within the Bonneville plan were reviewed.
- Various grants were discussed.
- Fire personnel provided information in regard to defensible space, vegetation types, and appropriate construction materials.
- The individuals responsible for each WUI Zone were designated.
- Various costs associated with mitigation strategies were discussed.
- Homeowner insurance information was reviewed.
